

25<sup>th</sup> October 2019

To Whom It May Concern:

Melissa Enderle has been working at Xi'an Liangjiatan International School since August 2018. Her primary role has been teaching visual arts to our upper elementary students. During her time at XLIS she has made a significant positive impact on the visual arts department. Melissa has helped us to genuinely make visual arts an integral part of the PYP, as it is meant to be, on par with the other subjects, such as Math or Language. Students have developed their love of visual arts through Melissa's teaching, and many have made significant development in creativity. This has been very important to our students in our context.

Much of Melissa's focus beyond teaching in a new PYP framework has been on getting the art program established, setting up the art rooms (including ceramics room and storage), ordering supplies, and organizing the supplies room to create a conducive environment for teaching and learning.

As well as this she supported the school by:

- Being a school choir member
- Volunteering as an English teaching at the Grand Melia hotel
- Provided some mentoring to our lower primary VA teacher and interns
- Organizing a fine arts event

I have very much appreciated Melissa's contribution to our school and have no hesitation recommending her for a visual arts position. If you would like any further information please contact me.

Yours truly,

Brian Lalor (M.Ed.)  
Primary Principal
